Hydra facial dermabrasion functions:

1) hydra facial

2) Diamond micro-dermabrasion

3) Oxygen spray

4) Ultrasonic skin scrubber

Effect:

Hydra facial dermabrasion help to improve the appearance of

- fine lines & wrinkles
- hyperpigmentation & melasma
- sun damaged skin
- age spots
- blackheads & whiteheads
- enlarged pores
- excess oil
- hydration
- puffy eyes
- rejuvenation, overall skin health

Operation skills:

1) diamond micro-dermabrasion

1: pipe and diamond tips connect to handle and then turn on the diamond peel switch

Important tips:

The black ring is necessary before use, otherwise it may cause air leakage and affect using effect. Please remember installing it.

Diamond tips

Diamond peel switch

Step 3: put diamond wand tightly onto corresponding skin according to different tips

Diamond peel handle

Touch the skin

Tips disinfected:

Wipe the tip after each use treatment then Sanitize with alcohol or a good germicide solution. Dry tips and wands completely before storage and/or before use.

2)Hydra facial dermabrasion

Hydra
handle tube
connector

Take pipe out correctly:
Press blue ring then pull the pipe
out

2: PVC tips connect to aqua peel handle

**Black
ring**

Notice:
The black ring is
necessary before
using, otherwise it
may cause air
leakage and affect
using effect.

3: put essence into clean water bottle and then connect clean and recycle water bottle
to mainframe

Clean water bottle

Waste bottle water out

Waster bottle water
in

**Recycle water bottle connection
tips:**
Please choose correct in or out
jack according to tag behind
machine and label on the bottle
top

About waste water bottle installment:

Put the white
ring into the
bottle

White
ring

Screw
the lid

Important tips:

Please remembering put the white ring into bottle before screwing lid otherwise it may cause a little suction or no suction and affect machine used.

3)Oxygen spray

4)Ultrasonic skin scrubber

1:connect pipe to spray and turn on the machine

2: connect the spray on the back of the machine

Oxygen spray pipe
connector

3: add 2-3ml serums/lotion to spray

Solution for simple failure

Failure	Solution
Power on, main machine no response	Check power connection
	Check whether power source is on
No output	Check the air pipe connection
During operation, instrument is overheat	Using for too long time, need to cool down in a nature way
	Check whether voltage is right (need professional technician to check)
No power	Check whether fuse is burnt, if so need to replace a new one
